Nansana, Uganda

OBJECTIVE

I am a dedicated Civil Construction Engineer with a strong foundation in project management, structural design, and site supervision. With extensive experience in both field and academic settings, I have successfully led diverse construction projects from conception to completion, ensuring quality, safety, and efficiency. My dual role as an educator has honed my ability to communicate complex engineering principles clearly, fostering collaboration and continuous learning. I am committed to delivering high-quality solutions that meet client expectations while adhering to industry standards and sustainable practices.

SKILLS

Language:

English, Luganda, Lusoga

Curriculum Development:

Designing and updating course materials to meet educational objectives and industry standards.

Instructional Design:

Creating engaging and effective lesson plans that cater to different learning styles.

Classroom Management:

Ability to create a positive learning

EDUCATION

Royal Institute - Bwaise, Certificate in Crafts And Building And Construction

2011 - 2012

Royal Institute - Bwaise, Certificate in Advanced Level Building And Construction

2009 - 2010

Gwase Premier College, O Level

2005 - 2008

Gwase Integrated Primary School, Primary

1997 - 2004

WORK EXPERIENCE

OSFRO Mpigi Technical, Instructor

2018 - PRESENT

Developing and teaching comprehensive curricula covering structural design, site safety, and construction best practices.

Makindye Institute, Instructor

2016 - PRESENT

Delivering hands-on training in building techniques and construction management to diverse student groups.

Mukono Technical, Instructor

2013 - 2015

Mentored aspiring builders, providing guidance on practical skills and industry standards.

Triple S Expendable Civil Engineers LTD, CEO/Founder

PRESENT -

Founded and operated a construction firm specializing in sustainable building practices and innovative engineering solutions.

Loyal Contractors, Civil Engineer

2014 - PRESENT

Supervising the renovation and expansion of an industrial facility, integrating new infrastructure while minimizing disruption to ongoing operations.

Rock Construction, Civil Engineer

2015 - 2016

Ability to create a positive learning environment, maintaining discipline and encouraging student participation

Public Speaking and Presentation:

Delivering lectures and presentations clearly and confidently to diverse audiences.

Mentoring and Advising:

Guiding students in their academic and professional development, providing career advice and support.
